DEPARTMENT OF THE INTERIOR.

Division of Grazing.

COLLECTION OF FEES FOR GRAZING LICENSES

MAY 5, 1936.

THE SECRETARY OF THE INTERIOR.

DEAR SIR: The paragraph of the Rules for Administration of Grazing Districts, approved March 2, 1936, which provides for the collection of grazing fees (page 3) reads as follows:

A grazing fee of five (5) cents per head per month, or fraction thereof, for each head of cattle or horses and one (1) cent per month, or fraction thereof, for each sheep or goat shall be collected from each licensee except free-use licensees.

Field representatives of this Division have advised that in the administration of this provision of the rules and 30-day minimum basis for collection of fees would be inequitable or work a hardship on the licensees in numerous cases. It is therefore recommended that the said paragraph be amended to read as follows:

A grazing fee of five (5) cents per month for each head of cattle or horses and one (1) cent for each sheep or goat shall be collected from each licensee, except free-use licensees, but where the grazing period involves a fraction of a month the grazing fee for such fraction shall be charged on a daily basis prorated on a 30-day month.

Respectfully,

F. R. CARPENTER, Director

Approved: May 15, 1936.

Acting Secretary of the Interior

GRANTS—E. R. A. 1935

1. *Amounts.*—(a) On projects financed in whole or in part under the Emergency Relief Appropriation Act of 1935, the Grantee may submit requisitions for grant funds in accumulated totals not to exceed 15% (optional), 25%, and 35% of the estimated cost of the project (the approved estimate) previously approved by the Public Works Administration as the basis of the finance agreement (offer and acceptance) with the Grantee; and 45% of the actual cost of the project upon completion, as determined by the Administrator, but not to exceed in any event the total grant specifically stated in the finance agreement.

(b) If the original approved estimate is revised, it then becomes the latest approved estimate. When the original approved estimate is revised downward, the latest approved estimate, in this case being the lower figure, will be used in place of the original approved estimate as the estimated cost for computing the 15% advance, the 25% advance, and the 35% intermediate requisitions.

2. *15% Advance (Optional).*—(a) At any time after the acceptance by the Grantee of an offer from the Public Works Administration to aid in financing the construction of a project, the Grantee may request an advance on account of the grant not to exceed 15% of the previously approved estimated cost of the project. This advance grant may be used for paying architectural, engineering, planning, and legal fees; costs of surveys, borings, and other preliminary investigations, costs of preparation of plans, specifications, and other forms of proposed contract documents, and costs of advertisements for bids for contracts and the printing of the Bonds, but not in payment for the acquisition of lands, easements, or rights-of-way.

(b) In justifiable cases where the progress of the work will be delayed due to insufficient funds, the Grantee may request the Administrator to waive the restrictions imposed by Paragraph 2 (a) above and permit the use of funds advanced on a 15% advance requisition for construction purposes. In each such instance the State Director shall submit his recommendations as to the proper disposition of the Grantee's request for the waiver.

As a matter of Administrative policy, legal fees cannot be included in the estimated cost of the project used to compute the 15% advance grant payment.

3. *25% Advance.*—(a) At any time after the acceptance by the Grantee of an offer from the Public Works Administration to aid in financing the construction of a project, the Grantee may request an advance on account of the grant not to exceed 25% of the previously approved estimated cost of the project; Provided, however, that such requisition on a grant only project will not be paid until the Grantee has made a cash deposit of its share of the cost of the project in the Construction Account for the project; and on loan and grant projects such requisition will not be paid until the Government has purchased all of the Grantee's bonds.

(b) On grant only projects, if the progress of the work will be delayed due to insufficient funds, the Grantee may request the Administrator to waive the proviso imposed by Paragraph 3 (a) above and approve a 25% advance requisition based on satisfactory proof that the Grantee's share of the funds will be available when needed.

(c) On loan and grant projects, if the progress of the work will be delayed due to insufficient funds, the Grantee may request the Administrator to waive the proviso imposed by Paragraph 3 (a) above and approve a 25% advance requisition based on satisfactory proof that the bond purchase will ultimately be consummated or that the Grantee's share of the funds can be secured from other sources when needed.

(d) When the Grantee requests a waiver of the proviso imposed in Paragraph 3 (a) above, the State Director shall submit his recommendations as to the proper disposition of the Grantee's request.

(e) On all projects where the question of the immediate availability of sufficient funds is involved, Grantees are urged to file the 25% advance requisition prior to the beginning of construction on the project, but in any case before the Grantee's incurred costs equal 50% of the approved estimate or the latest approved estimate, whichever is the lower.

(f) The 15% advance and the 25% advance requisitions are not alternative. Either the one or the other or both may be filed, depending on the financial requirements of the project.

4. *35% Intermediate.*—(a) When the project is approximately 50% complete (either financial or physical) the Grantee may request a payment on account of grant not to exceed 35% of the previously approved estimated cost of the project, but the payment thereof will not be made until the project is approximately 70% complete (either financial or physical).

(b) Under the form number in the upper left-hand corner of the Certificate of Purposes accompanying the grant requisition, the Grantee will give the approximate date when the project is expected to be 70% financially or physically completed; thus, "70% financial about 4-20-36". The requisition may thus be prepared and forwarded to Washington well in advance of the time for payment.

5. *45% Final.*—(a) At any time after the project is 100% physically completed, the Grantee may request a payment on account of grant, which together with all previous grant payments, equals 45% of the cost of the project upon completion as determined by the Administrator, but not to exceed in any event the total amount of grant set forth in the finance agreement.

6. *Notice.*—(a) A special notice for the Division of Accounts will be entered by Resident Engineer Inspectors under "Descriptive Report" on the Weekly Construction Report (P W Form I-3) and under "Remarks" on the Monthly Project Summary (P W Form I-92) stating when the project is 50% financially or physically completed, 70% financially or physically completed, and 100% physically completed; or, by way of anticipation, if it can be predicted with reasonable accuracy, when the project is expected to reach the completion stages mentioned herein. This notice will be prominently displayed as the first entry thus: "Division of Accounts. Physical completion 70% about April 20, 1936."

7. *Tabulation.*—(a) The diagram below shows in tabular form when the Grantee may file requisitions for payment on account of grant funds under the Emergency Relief Appropriation Act of 1935:

E. R. A. 1935

Grant	Time of filing requisition	% allowed

VETERANS' ADMINISTRATION.

REVISION OF REGULATIONS

HOSPITAL AND DOMICILIARY CARE

6047. ELIGIBILITY OF EX-MEMBERS OF THE MILITARY OR NAVAL FORCES FOR HOSPITAL OR DOMICILIARY CARE.—Within the limits of Veterans' Administration facilities, hospital or domiciliary care may be furnished the following applicants, in the specified order of preference:

(B) Hospital treatment for: (1) Persons honorably discharged from the United States Army, Navy, Marine Corps, or Coast Guard for disability incurred in line of duty or who are in receipt of pension for service-connected disability, when suffering from injuries or diseases incurred or aggravated in line of duty in the active service, and for which they are in need of hospital treatment.

(2) For applicants not in receipt of pension for service-connected disability, the official records of the Army or Navy, respectively, relative to findings of line of duty for its purposes, will be accepted in determining eligibility for

hospital treatment under this, subparagraph (B), except that where the official records of the Army or Navy show a finding of disability not incurred in line of duty and evidence is submitted to the Veterans' Administration which permits of a different finding, the decision of the Army or Navy will not be binding upon the Veterans' Administration, which will be free to make its own determination of line of duty incurrence upon the evidence so submitted. It will be incumbent upon the applicant to present such controverting evidence and, until he so acts and a determination favorable to him is made by the Veterans' Administration, the finding of the Army and Navy will control and hospitalization will not be authorized. Such controverting evidence, when received from an applicant, will be referred to the adjudicating agency which would have jurisdiction if the applicant were filing claim for pension or disability compensation, and the determination of such agency as to line of duty, which is promptly to be communicated to the manager of the facility receiving the application for hospitalization, will govern his disapproval or approval of admission, other eligibility requirements having been met. Where the official records of the Army or Navy show that the disability on account of which a veteran was discharged from his peace time service was incurred in line of duty, such showing will be accepted for the purpose of determining his eligibility for hospitalization notwithstanding the fact that the Veterans' Administration has made a determination in connection with a claim for monetary benefits that the disability was incurred not in line of duty.

If the applicant's only service was in peace time and his last discharge was not honorable, hospital treatment will be furnished only for a disease or injury incurred in line of duty in a period of service from which he was honorably discharged for disability incurred in line of duty.

(3) When the applicant is in receipt of a pension for a service-connected disability, inquiry will not be made as to the character of discharge from service. The same waiver as to character of discharge will be applicable to subparagraph (D), following.

(4) In those exceptional cases where the official records of the Army or Navy show honorable discharge because of expiration of period of enlistment or any other reason save disability, but also show a disability incurred in line of duty during the said enlistment; and the disability so recorded is considered in medical judgment to be or to have been of such character, duration, and degree as to have justified a discharge for disability had the period of enlistment not expired or other reason for discharge been given, the medical director, upon consideration of a clear, full statement of the circumstances submitted to him, is authorized to approve admission of the applicant for hospital treatment, provided other eligibility requirements are met. A typical case of this kind would be one where the applicant was under treatment for the said disability recorded during his service at the time discharge was given for reason other than disability.

(C) (1) Hospital or domiciliary care, including emergency or extensive hospital treatment, for: Veterans who served during a period of war as defined in paragraph 1, Veterans Regulation No. 10, and paragraph IV of Veterans Regulation No. 10, as amended by paragraph 1 of Veterans Regulation No. 10 (e), or in any war prior to the Spanish-American War, (1) who have an honorable discharge from their last period of war service, (2) who served in the active military or naval service for 90 days or more, or who, having so served for less than 90 days, were discharged for disability incurred in line of duty; (3) who are suffering from a permanent disability, tuberculous or neuropsychiatric ailment or such other conditions requiring emergency or extensive hospital treatment; (4) and who are incapacitated from earning a living, and have no adequate means of support.

(2) The administrative determination of line of duty incurrence of disability, as prescribed in subparagraph (B) (2) will also be applicable to veterans of wars under this, subparagraph (C).

(D) Hospital or domiciliary care, including emergency or extensive hospital treatment, for: (1) Persons honorably dis-

charged from their last period of active military or naval service in the United States Army, Navy, or Marine Corps (or honorably discharged from their last period of service in the United States Coast Guard), for disability incurred in line of duty or who are in receipt of pension for service-connected disability, when suffering from a permanent disability or tuberculous or neuropsychiatric ailment or such other conditions requiring emergency or extensive hospital treatment; and who are incapacitated from earning a living and have no adequate means of support. Also see subparagraph (B) (3).

(2) The determination whether an applicant other than one in receipt of pension for service-connected disability was discharged for disability incurred in line of duty will be obtained from the official records of the Army or Navy, respectively. However, under like circumstances, the exception as to this procedure, as prescribed in subparagraph (B) (2) will be applicable under this, subparagraph (D).

(3) The medical director's determination whether discharged, assigned for other reasons, could have been for disability incurred in line of duty, as prescribed in subparagraph (B) (4) will apply to applicants under this, subparagraph (D). (May 20, 1936.)

(F) Hospital treatment (only in facilities under direct and exclusive jurisdiction of the Veterans' Administration) for:

(1) Retired officers and enlisted men of the United States Army, Navy, Marine Corps, or Coast Guard (regular establishment) who served in a period of war as defined in paragraph I, Veterans' Regulation No. 10, and paragraph IV of Veterans' Regulation No. 10, as amended by paragraph I of Veterans' Regulation No. 10 (e), or in any war prior to the Spanish-American War; and who are suffering from a disease or injury for which hospital treatment is needed.

(2) Prior authority for hospital treatment of applicants under this, subparagraph (F), must be obtained from the medical director, applicants will be advised of the per diem rate applicable and will be required to express unqualified acceptance of that rate and intention to make payment in full for the treatment before hospitalization is supplied. The per diem rate will not be assessable for hospital treatment rendered prior to July 20, 1935. (May 20, 1936.) (Vets. Reg. No. 6 (c)).

Administrator of Veterans' Affairs.
